Assignment 1

Developing proposal on management topics

6 MONTH

Thesis

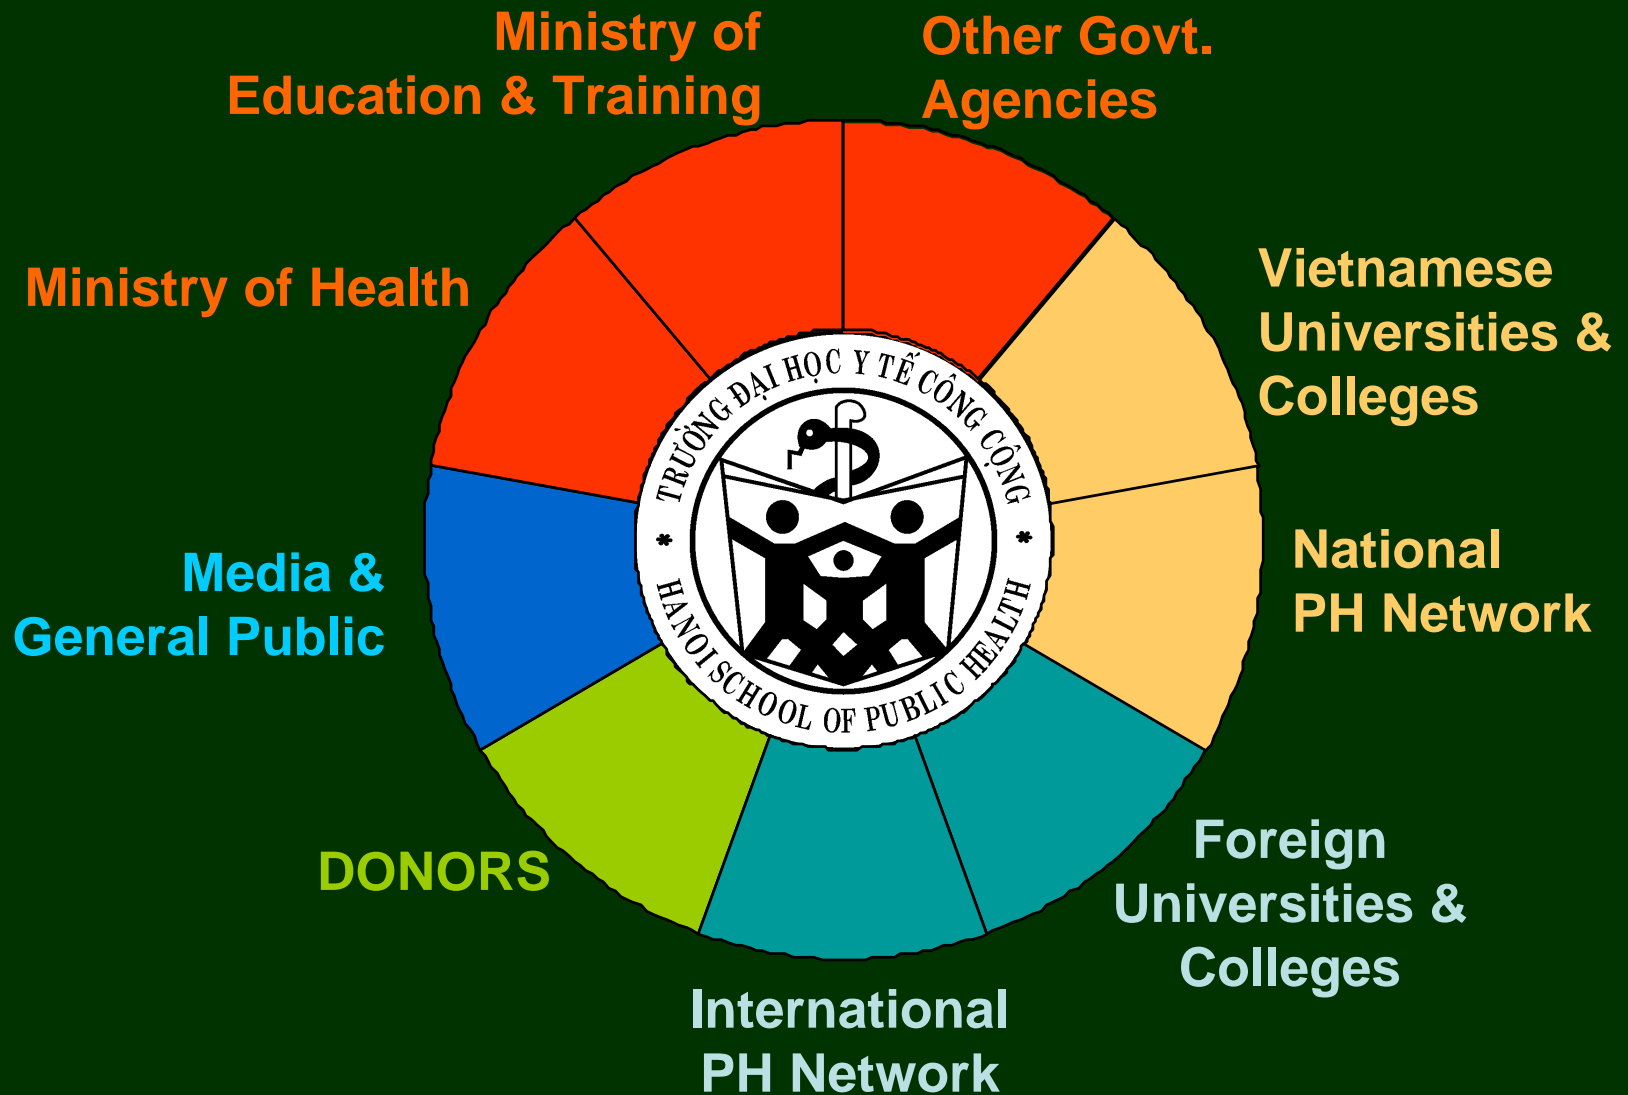

Research on health problem identified at the field site

Supervision of data collection at the field
Defense research

Thesis

Research on management (M&E)

Partnership is important in our successes so far

Why we want to joint TropEd ?

- **TropEd: an European network for Education in international health, and globally recognized by the public health institutions and professionals.**
- **HSPH aims to improve the quality of the MPH programme**
- **Joining the TropEd, HSPH will learn more from network and also can share the some experiences from developing countries like Vietnam**

What we have done ?

- **In April 2006, we invited the TropEd expert to review the current MPH program and develop the plan for improving quality assurance and the plans for joining TropEd**
- **Implementing the plan for quality assurance:**
 - Evaluation of modules of MPH course: end of each module
 - Evaluation of MPH course: alumnae survey
 - Class audit of junior lecturers by team of senior lecturers
 - Student handbook
 - Revise the MPH course after alumnae survey and the end module evaluation etc

What we have done ?

- **April 2007: letter of interest to the TropEd General Assembly (GA).**
- **September 2007: presentation of HSPH and MPH program to GA in Sweden**

Plan in 2008

- **April 2008: site visit by TropEd expert**
- **Proposal for TropEd:**
 1. **Supervision of TropEd students in conducting MPH thesis**
 2. **Offering two modules that quite specifically for Vietnam situation:**
 - **Principle and practices of injury prevention**
 - **Bridging the gap between research and heal policy making**

**Thank you
very much !**
